WORK EXPERIENCE

Freelance Web Developer

Remote, CA

<https://dandevlopsweb.netlify.app>

November 2022 — Present

- Used HTML, CSS, and JavaScript to create responsive, static websites for small local businesses that need an online presence. Deployed websites by using Netlify.
- Collaborated with clients to design contracts and develop websites to their specifications.
- Created e-commerce websites using Squarespace and integrated payment system using Stripe.

Hack for LA

Remote, CA

Web Developer Volunteer

July — Present

- Attend three weekly meetings to collaborate with different teams (UI/UX, Research, Product Manager) about our accomplishments, blockers, and new ideas for the Hack for LA website.
- Assist the website development team by creating documentation, refactoring code, problem-solving, and helping other volunteers with technical or programming issues.
- Code reviews twice weekly by following their documentation on successfully reviewing a pull request. Made sure that their code/pull request fixed the issue, was done correctly for merge and did not break the website.
- Fixed issues twice a week. Followed the product/research team instructions. I fixed issues in HTML, CSS, and rmd files. Learned how to use docker to display the website's most up-to-date version from the GitHub merges.

Curative Inc.

Santa Monica, CA

Site Specialist / Site Lead

February 2021 — December

- Lead and manage field operations, track inventory, document and report data points, handle patient information (HIPAA), troubleshoot technological issues, and train new employees on on-site protocols, operations, customer service standards, and company software.
- Participated in the vaccine and testing programs in Los Angeles County via mobile clinics and at the Santa Monica College Kiosk. Traveled to various locations LA county locations, focused on underserved populations to build health equity, and averaged around 30 to 1,500 patients per day.
- Completed 100,000+ PCR tests and vaccines to provide critical healthcare in multiple LA communities during the COVID-19 global health crisis.

EDUCATION

University of California, Los Angeles

Los Angeles, CA

Psychobiological Sciences, B.S.

Graduation Date: September 2020

- Documented workflow for work at the Interlibrary Loan Department as a student supervisor.
- Data entry and visualization with google sheets for user patron feedback of the ILL department.

CERTIFICATIONS

Google: Data Analytics Specialization

Coursera

- Learned critical analytical skills such as data cleaning, analysis, and visualization using spreadsheets, SQL, R programming, and Tableau.
- Acquired knowledge of data-driven decision-making and its benefits on problem-solving

UC Davis: SQL For Data Science

Coursera

- Developed basic SQL queries and applied their essential functions for cleaning and transforming data by filtering, sorting, and summarizing data

TECHNOLOGICAL EXPERIENCE

HTML, CSS, JavaScript, SQL, Python, Django, Bootstrap, Docker, Git, GitHub
